

## Community Support Contributions: 2013

AstraZeneca Canada is proud to provide support to many different charitable and non-profit organizations across Canada. In 2013, we invested more than \$6 million in health initiatives with Canadian charities and non-profit organizations. In alignment with our global Community Support Policy, we invest in initiatives that aim to improve the health and well-being of Canadians and that support science education for young people. Exceptions are permissible with senior manager approval.

AstraZeneca is committed to publicly disclosing information about the charitable and non-profit organizations we support with funding, in-kind donations and international product donations. AstraZeneca Canada adheres to the Imagine Caring Company standard for corporate giving and is a member of LBG (London Benchmarking Group) Canada. Our reporting is in line with LBG Canada standards.

If you have questions about the information contained in this document or about AstraZeneca Canada's community support activities, please contact us at [corp-responsibility@astrazeneca.com](mailto:corp-responsibility@astrazeneca.com).

Employee Giving and Volunteering Program

AstraZeneca Canada is pleased to support the giving and volunteer activities of its employees through its Volunteer Investment Program (VIP). VIP matches the donations employees make to registered charities up to a maximum of \$500 per employee; provides volunteer grants of \$500 to registered charities where employees have volunteered a minimum of 40 hours; supports team fundraising to a maximum of \$1,000; provides sponsorship of \$250 to sports teams and community groups with non-profit status where employees volunteer their time as coaches, mentors, fundraisers or board members; and lastly, provides up to two days of release time for employees to volunteer with the charity of their choice. The organizations listed below have received funding support from AstraZeneca through VIP.

### Product Donations

Internationally, we donate our products through [Health Partners International of Canada](#) (HPIC), a Montréal-based charitable organization that provides much needed medicines, vaccines, medical supplies and devices for use by humanitarian or disaster relief missions in developing countries. Our products are included in HPIC's Physician Travel Packs (PTP) and we respond to special requests from physicians traveling on humanitarian missions overseas.

In 2013, we donated close to \$1 million worth of medicines to HPIC. Our medicines were used by physicians on humanitarian missions to the Philippines, Cambodia, Fiji, Guatemala, Rwanda, North Korea, Burundi, Gambia, Nigeria, Ecuador, Togo, the Dominican Republic, Ghana and Uganda. We completed a significant donation of Bicalutamide (Casodex) to Zimbabwe in partnership with Howard Hospital. We continued to contribute product to HPIC's Physician Travel Pack program and to support HPIC's Capacity Building and Access to Medicines Project in Afghanistan.

### The AstraZeneca Human Edge at the Ontario Science Centre

In 2013, we entered into a 10 year sponsorship agreement with the Ontario Science Centre to support its newest permanent exhibition hall. The AstraZeneca Human Edge is designed to educate visitors of all ages about the human body, health, fitness and nutrition. We're hopeful [The AstraZeneca Human Edge](#) will inspire a passion for science and health among young Canadians and motivate them to become our next generation of great scientists, athletes, medical practitioners, or whatever else they aspire to.
